PROFESSIONAL SUMMARY

Creative and technically skilled Information Technology graduate with hands-on experience in video editing, graphic design, and 3D visualization. Proven background in producing professional multimedia content, including 3D golf course visualizations using SketchUp and Lumion, on-site video production, and AI-assisted editing workflows. Experienced in both local corporate and international environments, with strong adaptability, technical creativity, and a growing foundation in web-based system development.

CORE COMPETENCIES

- Video Editing & Post-Production
- 3D Visualization & Rendering (SketchUp, Lumion)
- Graphic Design & Visual Branding
- On-Site Filming & Video Production
- AI-Assisted Editing & Automation
- Web-Based System Development
- Creative & Technical Collaboration

WORK EXPERIENCE

● Airflix Company & Maxwell Achieves

Video Editor | *post-graduation*

- Edited digital video content for online and media platforms
- Utilized AI-powered tools for video enhancement, auto-captioning, and workflow automation
